PROFESSIONAL SUMMARY

Technical Support and Application Support Engineer with a B.Sc. in Software Engineering, resolving complex customer issues through code-level root cause analysis and SQL database inspection. Experienced in debugging REST APIs, analyzing server and client logs, triaging software defects, and communicating resolutions clearly to both non-technical users and engineering teams.

TECHNICAL SKILLS

Application Diagnostics: Log analysis, REST API debugging, HTTP status codes, browser devtools, root-cause analysis (RCA), defect triage

Systems & Network: Linux/Unix CLI, Bash scripting, system health checks, network connectivity (DNS, HTTP/S, TCP/IP), Docker

Quality & Testing: Regression testing, bug reproduction scripts, test automation (Playwright), black-box verification

Databases & SQL: SQL querying, PostgreSQL, MariaDB, schema inspection, data integrity checks, transactions, Prisma ORM

Software & Tools: TypeScript, JavaScript, Python, C#, PHP, Git, GitHub Actions, bug tracking (Jira/GitHub Issues), Postman

Languages & Comms: Arabic (Native), English (Professional), end-user training, technical documentation, stakeholder reporting

PROFESSIONAL EXPERIENCE

QA & Software Tester, *42 Abu Dhabi* 01/2026

- Conducted functional, regression, and cross-browser UI testing on internal student platforms; authored comprehensive reproduction reports with exact steps, logs, and screenshots to help engineering teams rapidly isolate defects.
- Re-tested defect fixes across multiple environments to verify resolution and ensure zero regressions before release.

Technical Mentor & AI Trainer, *Department of Education and Knowledge (ADEK)* 07/2026 – 08/2026

- Delivered technical support and troubleshooting for participants facing environment setup hurdles, dependency conflicts, API schema validation errors, and runtime bugs in Python and TypeScript.
- Guided teams through step-by-step code debugging, explaining technical concepts in plain language to foster self-sufficiency.

IT Support & Technical Staff, *Ticketmaster* 12/2025

- Served as on-site technical point of contact during an international event, provisioning hardware and access scanners; delivered rapid incident resolution under strict SLAs, maintaining 100% operational uptime.

Software Engineering Intern, *Timex IT Consulting* 01/2024 – 04/2024

- Identified and documented functional software defects on client accounting systems; developed C# MinimalAPI CRUD services with structured validation and verified fixes prior to client software rollouts.

KEY TECHNICAL IMPLEMENTATIONS

Student-Faculty Services v2, *full-stack booking & service platform* 2026

Live build: student-faculty-services-v2.infinityfree.io · Case study: naderkhalil.dev/case-study-v2.html

- Engineered a 46-endpoint framework-free REST API (PHP 8.4) with standardized HTTP responses, error logging, and database row locks preventing double bookings in 8-student race tests; verified by 500+ automated regression tests.

AI Booking Platform, *multi-tenant SaaS platform* 2026

Live build: booking.naderkhalil.dev · Case study: naderkhalil.dev/case-study.html

- Built a full-stack platform with database-level role isolation, Zod payload validation, and automated safety audits (120 checks); backed by 766 automated unit, integration, and Playwright end-to-end tests in GitHub Actions CI.

42 Intra Logtime Calculator, *published Chrome extension* 2026

Chrome Web Store: chromewebstore.google.com

- Published extension (60+ users, 5.0★ rating) with client-side DOM parsing and zero downtime, maintained across platform layout updates.

EDUCATION & CERTIFICATIONS

B.Sc. in Software Engineering, *Al Ain University*

Computer Science Diploma, *42 Abu Dhabi*

MOEI × 42 Abu Dhabi AgentEra Hackathon, *Honoree*

CyberQ CTF, Top 10 Finalist, *UAE Cybersecurity Council*

Hack The Box University CTF, *Top 12% (119/1,014 teams)*

RecognAIze Hackathon, *AI on Watch with Datamind*

Languages: Arabic (Native), English (Professional Proficiency)
